

Intern - Cyber Scientist

As an Intern Cyber Scientist at Honeywell Aerospace Technologies in Brno, you will have the opportunity to gain valuable experience in the field of cybersecurity. This internship offers an exciting opportunity to work alongside experienced professionals and contribute to our cybersecurity initiatives.

Honeywell Aerospace Technologies is a global leader in the aerospace industry, committed to creating safer and more efficient air travel. Your role as an intern will support our efforts in ensuring the security and resilience of our systems and data. You will assist in conducting risk assessments, implementing security measures, and supporting the development of cybersecurity strategies. This internship will provide you with hands-on experience in the field of cybersecurity and exposure to industry best practices.

Key responsibilities:

- Contribute to design and implementation of security measures to protect systems, networks, and data.
- Contribute to design of AI agents that will detect attacks and respond in real-time.
- Contribute to software development of AI agents.

Key skills and qualifications

- Completed bachelor's degree.
- Interest in cybersecurity.
- Excellent problem-solving skills and ability to work under pressure, strong communication skills.
- Advanced level of English for regular communication.
- Any of the below is advantageous: Experience with Linux, Python, and C++, security monitoring tools would be beneficial, knowledge of machine learning would be beneficial.

We Offer

- Market-specific training and ongoing personal and professional development with support of experienced leaders

- Access to modern tools, technologies, and innovative work environments. Mentorship and guidance from experienced professionals
- Semi-flexible working hours
- Employee Assistance Program - Free and confidential service to help with any difficulties regarding work, life and personal or family matters.

Location: Tuřanka 1387/100, Brno
